Piepmeier Contents I-Organization II-Duties of resident engineers and inspectors III-Daily routine of engineers in charge of road construction IV-Reports V-Water supply VI-Road bed VII-Laying pavement VIII-Cement IX-Materials X-Central mixing plants XI-Finishing concrete pavements XII-Special sections XIII-Curing XIV-Bituminous filled brick construction XV-Bituminous concrete pavements XVI-Gravel roads XVII-Macadam roads XVIII-Bituminous macadam roads XIX-Earth roads XX-Oiled earth roads XXI-Shoulders and side ditches XXII-Acceptance of work XXIII-Payment estimates XXIV-Detour and barricade signs Preface The purpose of this bulletin is to set forth briefly the requirements of the Department of Public Works and Buildings, in the construction of various types of roads. It must be understood that all preliminary work in the location of right-of-way, surveys, plans and specifications, regardless of the time or talent employed in the preparation of the work, may be useless if the construction is not intelligently and fairly executed. During the next ten years it is estimated that one hundred million dollars will be spent for road improvement in Illinois. It is very important, therefore, that...
