Who will survive and even thrive under economic conditions reminiscent of our country s darkest economic era? Fortunately, authors Rahim, Holloway, and Summerour have condensed what it takes to identify and secure meaningful employment in today s grueling job market into four time tested, research proven and fundamental concepts .the 4-Tions: Documentation, Preparation, Presentation and Communication. As a job creator and serial, social entrepreneur it has been my greatest responsibility to hire and supervise the talent of entry-level through professional employees to perform critical services in high-risk, high-needs environments for over 20 years. My strategic advantage within my marketplace is found within my employees. Accordingly, in every hiring decision, the 4-Tions have been indispensable to and decisive in my strategic employment process. I require that my prospective employees document impeccable credentials, indicate significant prior knowledge about my companies, exhibit excellent communication skills, and demonstrate a superior level of professionalism appropriate to their tasks. In addition, I require that my employees display the ability to leave a lasting positive impression on my clients and customers by being the most knowledgeable people in the room in their area of expertise at all times. In fact, the 4-Tions is more than a practical, user-friendly guide to successfully gaining employment in a highly competitive environment. It also encourages life-long learning and facilitates networking through effective and efficient use of social media and other technology.
