Excerpt: .farmers in introducing disease-resistant varieties, and methods of cropping. In the State serum laboratory, with which the veterinarian is connected, studies were made regarding the action of various serums, their manufacture and use. The veterinarian also continued to render service to the State live stock sanitary board in the bacteriologic diagnoses of animal diseases. A breeding circuit at New Salem, including about 200 cows owned by different farmers in that community, was conducted as a part of the cooperative work of the station. The 24 demonstration farms, located in as many counties and in counties containing no substations, give the station an opportunity to demonstrate the value of its experiments for practical results. The wsrk on these farms has brought out very forcibly the value of crop rotation and the use of varieties adapted to the different regions. It has also shown that the...
